## Pupils + Plastic = Products!

By Joey

In the Autumn reran 2025-2026 5 children from Woodcote primacy school started 3D printing them had to prototype and we created seined fins thins. unusually we do Dat, but we started 3D printing.

some deferenr thins prototype projects.

The children learned to use a program called tinker cad read sorts they had to login the they learned to use shapes group pedal the shape to make a project.
